Lexington Caucasian.

STOCK, FIELD AND FARM.

The manufacture of mait liquors has sumed institute or propertions curring the of decode. \$50,000,000 are invested in marked to be coming into the current in the United States. In hop the horizontal making a total of \$10,000,000, The Brewers' Association their trade has paid the United States. Currently the factor of the convenience of short-liquors of the convenience of short-liquors of the convenience of short-liquors of the convenience of the the year 1856 or 1856, or thereshout, the Grass Valley Union, we knew a to Neveda City, who miked two or rows, and who need to walk around flarry told her the comet, would move hed since then, and now has

The Vassar girl, when she travels, does not carry a trunk. She hires somebody control. He is now engaged in milking 1,200 cows and he makes butter and cheese. Next spring he will milk 2,500 cows. His cows are of excellent stock, consisting of Devon, short-horn and Aiderney blood. The name of this successful milkist and ax-Newada City man is S. C. Abbott. He property is assessed this year at \$400,000, and we doubt much if he would set out at that figure.

prie, weil enough .- Dr. Holiand tie toud.

among the most stylish of the season.

When a Chicago woman feels particularly spitch in drive have offen seen hores:

Stable at hoose for an hour or not eat a pound of hay or grain, distuity for water, and then their mers, who would not let them r when warm, will come to give kill, and drive the remainder of two buckets of water and or only the company of two buckets of water and or only the company of two buckets of water and or only the company of two buckets of water and or only the company of two buckets of water and or only the company of the compan ster when warm, who the remainder of the kill, and drive the remainder of the kill, and drive the remainder of on two buckets of water and no. Ten chances to one, his horse gives the him, or gets sick before night, the him, or gets sick before night, the horse water in procession go by, and the board of true two laws on.

inaginary things. Has a depraved appetite, displays as unusual fordness for his master, and an intense desire to lick his hards and face. The sconer such a dog is killed the better.

The books tell us that the first cattle imports into this country were by Columbus in 1463. The first importation by the Plymouth company was in 1624. A few years later the Dutch brought them to these cattle was a little less than 350 pounds. In 1716 the average weight of these cattle was a little less than 350 pounds. In 1716 the average weight of these are of meet and to skep on our husks.

Japots are again in tavor. The most appearance of the search of Boston, to day, they average his steadily advanced until in the Brighton market of Boston, to day, they average fity per cent more than in 1850. The largest betwee reported in the book and suffer their mothers to fan them. Young greatement at the depoty years and bought a base ball but and gross, net 3,709. At the present time it a common occurrence that a subspace of Dimois cattle average 1,600 p unds. This increase in the weight, and consected where the consecution of the substantial present of the substantial presents of the
